

UGH! NOT CALOMEL, OIL OR SALTS, TAKE "CALIFORNIA SYRUP OF FIGS."

Delicious "fruit laxative"
cleanses stomach, liver
and bowels.

A harmless cure for sick headache,
biliousness, sour stomach, constipation,
indigestion, coated tongue, salivaceous
taste "California Syrup of Figs." For
the cause of all such misery comes
from a torpid liver and sluggish bow-
els.

A tablespoonful tonight means all
constipation, poison, water matter, fer-
menting food and sour bile gently
moved out of your system by morning.

HOW CELEBRATE BATTLE OF JENA WITH VICTORIES

Efforts of General Von Kluck to Smash Allies' Left Have So Far Failed—German Fleet Stated to Be Unusually Active in the Baltic Sea—Turkey Again in Mix-up Regarding Reports That Two Boats Purchased From Germans Are Nearing Russians.

London, Oct. 14.—There is hope in London today that the anniversary of the battle of Jena in which the French gained a victory over the Prussians and Saxons just 18 years ago today, may be celebrated about both battle fronts by events recalling this great and decisive struggle, but whatever the outcome but meagre successes can be expected as only the British reports are received of what is now transpiring in Belgium, France and Russian Poland.

The latest French official commu-
nication declares there is nothing to re-
port except a notable advance in the
Junction of Berry-Aux-Bains, while Petro-
grad give out the ecstatic statement
that warlike operations continue to
develop along the Vistula and San
Itzers as far as France and further
south as far as the Dolomite. A great
battle along this front may even now
be under way and in any event it can-
not be long postponed.

Vienna reports that the Austrian
offensive continues successful north
and south of Przemyśl and that Jav-
ov, an important fortress taken by the
Russians several weeks ago, has been
recaptured by the Austrians. A dispatch
received here from Nish Serbia relates
that among the Austrians, a dispatch
from German general staff, Austria has
concentrated on the banks of the Tisza
the greatest army yet sent against Ser-
bia in a final and supreme effort to
crush that country. Piece skirmishes
already have been reported between
outposts and a hot battle is said to be
imminent.

Nearer home news of military oper-
ations is even more meagre than in the
eastern arena. Stubborn fighting is
reported at (name deleted by censor)
and it is claimed that all the efforts
of General Von Kluck to smash the
allies' left have been repulsed.

In the Baltic the German fleet is
showing unusual activity. Submarines
in the area, according to the Ber-
lin announcement, recently sank a
Russian cruiser at a point distant two
days steaming from their base and a
great German squadron flying the flag
of Prince Henry of Prussia is today re-
ported cruising about the island Is-
land.

without griping. Please don't think of
"California Syrup of Figs" as a physic.
It isn't. It is a delicious, delicious
fruit laxative can not cause injury.
Even the most delicate child can take
it as safely as a robust man. It is the
most harmless, effective stomach, liver
and bowel cleanser, regulator and tonic
ever devised.

Your only difficulty may be in getting
the genuine, so ask your druggist for
a 50 cent bottle of "California Syrup of
Figs," then see that it is made by the
"California Fig Syrup Company." This
city has many counterfeit "fig syrups,"
so watch out.

RED CROSS NURSES ARE KILLED BY AN EXPLODING SHELL

Paris, Oct. 14.—(9:10 a.m.)—
News was received in Paris to-
day of the death of General
Bomdony, commander of the
third brigade of French colonial
infantry. The general was killed
while leading his brigade
against the enemy.

Two Italian nurses have met
their death on the field of bat-
tle. The women were killed by
one exploding shell while they
were on duty in a field hospital
behind the center of the allied
armies.

LEGISLATURE HAS BUSY HOUR; MUCH WORK COMPLETED

Two Canada Central and One
Dunvegan Railway Bills
Given First Readings

PROVISIONS ARE MADE
TO BORROW \$3,000,000

Petitions on Women's Suffrage
and Prohibition Referred
to Committee

The members of the legislature have
so far proved as good as their word
and on Tuesday gave a first-class
showing of how to run a lot of
business, without unnecessary oppor-
tunity, in a short time.

The sitting began at four o'clock and
was over an hour later. Then an
adjournment was made to 2:30 Wednes-
day. In that 40 minutes the legisla-
ture, many questions were asked
and expeditiously answered, reports
tabled, no less than 25 private bills
were given second readings and sev-
eral important government bills in-
troduced. These are scheduled to re-
turn to the legislature on Thursday.

Provincial Treasurer, Mitchell intro-
duced a bill to raise \$3,000,000 on the
general revenue fund and to provide
for a term of 50 years, the rate of in-
terest not to exceed 4 per cent. The
bill explains that the purpose is for
the covering of any debt of the prov-
ince on account of, or arising out of,
the operation of the provisions, for
the carrying on of public works
authorized by the legislature, and for
the satisfaction or discharge of any
obligation of the province.

Line to Gravel.
Most of the time was taken up yester-
day by the railway legislation
brought down by Premier Sifton. There
were three bills, one guaranteeing
at \$200,000 a mile the line of the
Canada Central (P. C. and B.)
from the main line of the Dunvegan
line to the coast, a distance of
about 14 miles. A. Patterson, con-
servative member for Peace River, made
his maiden speech in the house in con-
nection with this legislation, and con-
curred with the premier in that the
line was needed.

A second railway bill also has refer-
ence to the Canada Central, and pro-
vides for the paying over to the com-
pany, out of the proceeds of the sale
or hypothecation of the company's re-
sulting from the sale of the line, 40 per
cent of the cost of the road, upon the
report of the minister of railways (Mr.
Sifton) and the railway commission-
er of the provincial engineer. The line
had already been guaranteed in the
ordinary way, but, as the contractors
are going ahead already with the work,
and as the line is needed by the country
and will open the real Peace River
country, it was thought wise to take
this step.

Is Federal Charter.
In answer to a question by C. M.
Tweedie, member for Centre Calgary,
as to why the main line of the Dunvegan
road was not passed through Gravel,
Premier Sifton said that the road was
being built under a dominion charter,
and the federal minister of railways
had authorized it to be built 14 miles
south.

Another act was brought down to
guarantee the P. C. and B. C. bonds
for another 61 miles, which will bring
it to the B. C. boundary. All these will
come up in the house Thursday.

The petitions regarding women's suf-
frage and prohibition were referred to
a committee of three—Smith, Glen-
denning and Ewing.

Hon. J. R. Boyle, minister of educa-
tion, got first reading on a bill to
certain school districts in the southern
districts which were hit by drouth
this year.

CARIBOO SHERIFF IN
CITY TO MEET SISTER
COMING FROM SCOTLAND

It. S. Peters, sheriff of Cariboo dis-
trict, B.C., is in the city on his way to
his home in South Fort George. His
sister, who is on her way from Scot-
land, will meet him in Edmonton on
October 14, and accompany him to his
home, where she will spend the winter.

Some time his sister has been resid-
ing on the island of Trinidad. Mr.
Peters had just returned from
Clinton, B.C., where he was attending
the annual meeting of the court. He is the son
of the late Captain J. S. Peters of the
Royal Naval service, and is a nephew
of the late Dr. James Keith Anderson,
who was for a great number of years
officer of health for the borough of
Arbroath, Scotland.

Mr. Peters is an old timer in western
Canada, having been agent for the
Hudson Bay company in northern
B.C. for over 30 years.

Mr. Peters and his sister will be
guests at the Cecil hotel while in the
city.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and
Sulphur Recipe and Nobody
Will Know.

The use of Sage and Sulphur for re-
storing faded, gray hair to its natural
color does back to grandmother's
time. She used it to keep her hair
beautifully dark, glossy and abundant.
Whenever her hair fell out or took on
that dull, faded, or streaked appear-
ance, this simple mixture was applied
with wonderful effect.

But leaving at home is messy and
out-of-date. Nowadays, by asking at
any drug store for a 50-cent bottle of
"Wyle's Sage and Sulphur Com-
pound" you will get this famous old
recipe which can be depended upon to
restore your hair to its natural color
and is splendid for dandruff, dry,
greasy, itchy scalp and falling hair.

A well-known doctor here says it
darkens the hair so naturally
and evenly that nobody can tell it has
been applied. You simply dampen your
hair with water, then apply the
sponge or soft brush with it and draw
it through your hair, taking one
strand at a time. By morning the hair
falls out, and after another ap-
plication or two it becomes beautifully
dark, glossy, and abundant.

STATED AUSTRIANS
HAVE RECAPTURED
TOWN OF LEBBERG

Berlin, Oct. 14.—(4:32 p.m.)—
There is rumor current here to-
day but it lacks confirmation,
that Lemberg, Galicia, has been
retaken by the Austrians.

SO MANY REFUGEES NO ACCOMMODATION CAN BE PROVIDED

Problem in London Now Stated
to Be Assuming Serious
Proportions.

STATE OF PANIC SAID
TO REIGN IN OSTEND

Estimated That Over 100,000
Belgians Have Already
Arrived in England.

London, Oct. 14.—Belgian refugees
are arriving here in such increasingly
large numbers that the war refuse
committee is under the necessity of
making for them. Herbert Louis,
Samuel, president of the local govern-
ment board, yesterday expressed his
belief that committees be formed in
various parts of the country to assist
in obtaining food and shelter for the
strangers and to help find homes in
which they may be placed.

Mr. Samuel stated that 5,000 refugees
already have been distributed
among homes in different parts of the
country. The government has provided
a refuge at Alexandra palace, which
accommodates 4,000 people, and a
smaller one where 4,000 more have
been given quarters. Arrangements
were made yesterday for lodging a
large number of the refugees in the
Earl's court exhibition buildings, but
it is anticipated that the capacity of
these buildings will be speedily ex-
hausted.

So great is the demand for passage
on steamers from Ostend, that these
boats arrive at Folkestone carry no
baggage. As soon as they discharge
their human freight the steamers re-
turned to Ostend, where thousands of
Belgian refugees were clamoring for
transportation to England. The state-
ments of some of those who succeeded
in getting away indicate that a state
of panic exists at Ostend, where
crowds of fugitives continue to flock
into the city, spreading exaggerated re-
ports regarding the proximity of the
German pursuers.

Among yesterday's arrivals at Folke-
stone and Dover were several hundred
wounded Belgian soldiers. It is likely
that their number will be considerably
increased in the course of the next few
days. They are being looked after by
the relief committee for wounded al-
lies and are being sent in small bodies
to different frontier cities and towns
where arrangements have been made
for their hospital accommodation.

It is estimated that nearly 100,000
Belgian refugees have already landed
on these shores. It is feared that the
strains of fugitives will increase in
volume as the German occupation of
Belgium becomes more complete.

COMMANDER OF GOEBEN WILL BECOME HEAD OF THE TURKISH FLEET

Rome, Oct. 14.—A report re-
ceived here from Constantinople
says that the commander of the
former German cruiser Goeben
will become head of the Turkish
fleet and aims to attack the
Russian fleet for mastery in the
Black sea, and to threaten the
Russian coast. The Goeben now
flies the Turkish flag and all her
crew and crew are said to be
Germans.

PROMPT ACTION BY BOTH HAVING AN EXCELLENT EFFECT

Maritz Ultimatum Mentioning
Other Generals Does Not
Incriminate Them.

FREE STATE PRESIDENT
THINKS LEADER IS MAD

Does Not Think Herzog, Beyers
and DeWet Approves of
What Maritz Did.

London, Oct. 14.—The Morning Post's
Capetown correspondent says the fol-
lowing:
"Maritz ultimatum containing refer-
ence to Generals Herzog, Beyers and
DeWet does not necessarily mean that
these leaders are implicated in the plot.
It may have been an attempt to in-
criminate them. General Beyers alone is gen-
erally mistrusted.

The general indications are that the
Maritz revolt and the prompt action of
the government are producing a fresh
wave of enthusiasm for General Botha
personally, and for his policy. In view
of the mischievous influence of certain
Portuguese propaganda is a special
reason for gratification in a letter from
Rev. A. L. Steyler, moderator of the
South African church, who speaks with
enthusiastic approval of the attitude
of General Botha and the government
and declares that the action of Beyers
is reprehensible.

Beliz, president of the senate and
ex-president of the Free State, inter-
viewed by the Cape Times, said:
"Maritz must be mad," and expressed
the view that General Herzog, Beyers,
Kemp and Miller were not in the
plot, but that Maritz desired to involve
them. He added: "I know Maritz well
personally, some of them, intimately.
I don't for a moment believe any one
of them either knew Maritz's intention
or would approve what he has done."

"I am entertained for the success
of the support of leading Cape
Town Afrikaners, to ex-President
Ritch, whose influence is paramount
among the Afrikaners, and even DeWet,
with the Maritz backsliding, which
Maritz has been canvassing chiefly for
support."

"One hand in a vigorous article call-
ing for vigorous support of the gov-
ernment describes Maritz conduct as
unbecomingly and most humiliating of
Afrikaners. It says that mention by
Maritz of five Boer generals places
them in a most unfavorable position."
"People have the right to expect them
to make declaration immediately and
publicly that they have had nothing to
do with the rebellion and revolt," the
article concludes."

GERMAN PLAN HAS BEEN FRUSTRATED

Attempt to Deliver Crushing
Blow on Allies' Left
Failed.

TEUTONS OCCUPY PYRES
Their Position, However, Un-
tenable with Heavy Re-
inforcements.

London, Oct. 14.—(4:15 a.m.)—In a
despatch dated Monday the Daily
Globe's correspondent in northern
France says:
"The great German plan to hold the
department of Pas-de-Calais and de-
liver a crushing blow to the allies' left
wing has failed thus far. Yesterday
and Saturday our armies drove the
enemy still further back."
"The German army, which extended
from Toulon to Arras, and was
forced from its position on Tuesday,
has again met with heavy defeat and
has been driven back northward."

"The battle which has been raging
at intervals near Arras blazed out
yesterday, I hear, and once more
the German line has been broken to
east and north. The German army
are said to be heavy. One force ad-
vanced to week from the northeast
on (baillif) (department of the Nord
near the Belgian frontier) has had to
turn back and as long ago as Wednesday
its column was beating a heavy re-
treat when they came to join their
supporters at Tournai."

"A force was occupied Wednesday af-
ternoon by a moderate detachment of
German cavalry and infantry, but it
they have not yet evacuated, it they
must do so in the next few hours, or
their position is untenable without
very large reinforcements. If then,
if they exist, cannot reach them now."

Scherbro, Oct. 14.—F. R. Riley, a
man who went hunting with a com-
panion named McCutcheon, Thursday
day, is still missing, and 100 men are
searching for him.

REPORT IS FROM GOOD AUTHORITY STATES DESPATCH

New York, Oct. 14.—The New

cable which says:
"It is reported in London from
authoritative sources that Ostend
was taken by the Germans tonight

Will Ask Congress of Portugal To Mobilize Troops October 18

London, Oct. 14.—(1:35 p.m.)—Cabling from Lisbon, the
correspondent of the Central News says it is reported that the
German minister of Portugal and other Germans residing in Lis-
bon are about to leave for Madrid.

As a result of cabinet meetings and conferences between
the leaders of the various Portuguese parties and the president
of the republic, the correspondent continues, it has been resolved
to convoke congress October 18 in order to pass a vote for the
mobilization of Portugal's troops.

London Report Says Portugal Declares War Against Germany

London, Oct. 14.—(1:21 p.m.)—A Central News despatch
from Madrid says it is reported from Lisbon that Portugal has
declared war against Germany. The message, which lacks official
confirmation, is published in Madrid with all reserve.

BIG BATTLE COMMENCES ALONG LINE FROM SAN TO THE RIVER VISTULA

Washington, Oct. 14.—Colonel Go-
lewski, military attaché of the Russian
embassy here, received today the fol-
lowing official dispatch from Petro-
grad:
"A battle has begun on a line ex-
tending from the country around War-
saw along the river Vistula and San to
Izraelow and further to the south to
the river Dniester."

"In east Prussia the situation re-
mains unchanged."
"Immediately south of Gdansk there
was still fighting Monday and yester-
day, with the south-going German
column heavy losses. It is reported
that the famous Death's Head Hussars
have suddenly appeared in this region."

"Apparently a couple of thousand
Germans will gather on the Ger-
man side, but Julius A. Van Hee,
the American vice consul here, has
gone to Brussels to arrange, if possible,
for these troops to be quartered with-
in certain limits with a view to avoid-
ing possible disagreements between the
soldiers and inhabitants."

"The battle which has been raging
at intervals near Arras blazed out
yesterday, I hear, and once more
the German line has been broken to
east and north. The German army
are said to be heavy. One force ad-
vanced to week from the northeast

How to Banish Wrinkles Quickly

If the average woman only knew it, it is not at all difficult to preserve the youthful contour and velvety smoothness of complexion. Every woman hates to see her face wrinkled or lined, and practically every one has experienced some sort of patent remedy in the effort either to remove such condition or ward it off.

As a matter of fact, the most effective remedy in the world is one that any woman can easily make up herself at home, in a few minutes time and for a mere outlay of pure powdered salicylic acid, which she can purchase at any drug store, and dissolve it in a half pint of water. The result is surprising and instantaneous. The wrinkles are less in evidence and the face has a radiant, young, fresh feeling of firmness that is most delightful.

GERMAN CULTURE IN FREE COMPETITION.

The Hohenzollerns have encompassed the death of probably half a million men, and the end is not yet by many hundreds of thousands. Their object in launching this tidal wave of blood has been to satisfy an egotistical ambition to dominate the destiny of millions who do not now recognize their claims to divine authority nor their infallibility as rulers. To fasten this domination they propose to put "Germany over all," substituting German institutions and German "culture" for the institutions and culture of the countries which they propose to conquer.

But the test of experience shows that where German institutions and German culture come into peaceful contact with institutions and culture of the countries to which Germans migrate, Germany's ideals and systems languish and invariably lapse. This outcome is arrived at by Germans subscribing to the manners and customs of the countries to which they migrate.

No better illustration of this than United States can be had at the present time. Germans claim that 30 per cent of the population of United States is Teutonic. Yet the systems, language, ideals and ambitions of United States are of a nature which had their original expression in the country which United States fought to the death in order to make herself independent of. Germany had United States enemy toward Britain as a basis upon which to work, and one out of every three or four of the population as a fulcrum. Yet the German influence has been virtually swallowed up. Germans themselves have discovered in the systems of the country to which they came in such enormous numbers something superior to their own that their own people become almost instantly converted to these and hasten to take fullest advantage thereof. The Kaiser sees his own people go abroad and merge their Germanism into the superior systems of democracies.

This is the thing which sends the Hohenzollerns on the way path. The German system of civilization is a forced growth even in their own country. Transplanted, it will not survive. The only chance of placing Germany over all is by extending the boundary lines and by saddling the acquired territory with the militarist despotism with the Kaiser at the top. In the insane belief that he can accomplish this, the Kaiser does not hesitate to send a million men to their death and to wreck a continent.

FINISH OF THE WAR STILL IN THE DISTANT FUTURE

The military critics who thought this was going to be a short war will have to revise their estimates. The war has now been in progress since the first week in August and a comprehensive glance at the situation shows that it is only now getting well under way. The allies are still pouring recruits into the line that stretches from the Vosges to the North Sea. The Russian millions have not yet come in anything like the numbers that were engaged within another month or six weeks. The navies have not yet been engaged in more than mere incidents. And, most significant of all, Kitchener is going ahead with his arrangements upon a basis that presupposes months and possibly years of war, giving recruits 26 weeks of training, and setting the date for the launching of his next great expeditionary force at some time after Christmas.

Viewed in retrospect, the reader of history, for whose benefit the momentous events of decades and centuries are crowded into pages, loses count of the fact that the consummation of the things recorded in a paragraph may have exhausted years of time. The French revolution was under way three years before Napoleon came into the calcium glare. It was not until twenty years later that finally was written to the man whose remarkable career of war, the working out of his destiny and all that it entailed absorbing two of the most crowded decades of history.

To readers who have accommodated themselves to a transmission of intelligence which normally gives the smallest detail of news immediate record on the other side of the globe, the belated and fragmentary reports which are permitted to trickle past the censor make the movements of armies seem cumbersome. But as a matter of fact, the march of events in Europe has been more rapid than anything of a like nature heretofore recorded and upon a more tremendous scale. Into each day of the few brief weeks of war there have been crowded battles of greater magnitude than Waterloo; encounters more sanguinary than Gettysburg have gone almost unrecorded. Civilization is hurrying up its assets in men and wealth more rapidly than ever before; but modern civilization has much more to burn up. Civilization and warfare are not synonymous. But civilization permits nations to call into warfare the most extreme limit of their durability; to move their last man to the front and to call on their last resource. For this reason, the present war, although greatest in magnitude, promises to become the most exhausting and the longest because there is more to exhaust. With each of the involved nations in possession of untold wealth still to be drawn upon and millions of men still to be called to arms, the finish is still a long, long distance in the future.

CONFISCATE BALANCES FOR GERMAN GOODS

In this proposal to confiscate Made-in-Germany goods there is room for a little discrimination, lest the injury be inflicted upon our own people.

Previous to the war, there was a legitimate trade with Germany and Austria. Merchants having in stock German goods which antedated the war made the purchases with no idea that the money remitted would be used against Canada or Britain. These goods—of at least some of them as have been paid for—are no longer Germans' goods, but Canadians. To refuse to buy them would be to visit an unmerited hardship upon Canadians who have broken no law, even in sentiment. It is difficult to understand how any large volume of German goods could have come to Canada since the outbreak of the war, Britain having control of the seas. But if there is any stock of German goods still coming and the Canadian money paid for them being subsequently used to shoot Canadians, the simplest measure of self-defense would be to place an embargo against them. As a retaliation against Germany, which seized foreign balances, Canada should confiscate whatever unpaid balances there are still owing Germans for goods supplied to Canadian houses or other previous subsequent to the outbreak of war. The amounts so confiscated might be found sufficient to make a very presentable sum to be used toward the relief of what hardship has been caused by the Made-in-Germany war.

A SUSTAINING PROP TO ENDURANCE

Such endurance and valor as is being shown on the battle line at Aisne has never been seen before in any field of conflict, nor could it have been possible in any previous war.

In this war, for the first time, men engaged, besides being soldiers, subject to the orders of the directing mind, are, to a degree, unthwarted, idealists. Quite possibly, by hundreds of thousands of those fighting, the absolute picture of the ideal cannot be put into words. Yet nevertheless it is there, and it is the feeling that they are fighting for an ideal or principle rather than for the conquest of a territory or the chance to be in at the sack of a city that distinguishes the civilized man in warfare from the savage, and sustains the soldier of civilization to a degree of endurance impossible in the savage.

Ultimately the ideal will take form, just as all ideas emerge in definiteness out of the word's epochs. When that day arrives, all will know what this war is all about.

MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to Flush Kidneys if Back Hurts or Bladder bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost invariably settles in the kidneys and expels it from the blood. There should be sluggish and swollen, that you suffer with a full misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach, tongue, is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, it is often cloudy, often gets sore and irritated, obliging you to seek relief two or three times during the night. To neutralize these irritating acids, to cleanse the kidneys and flush out the body's uric acids, get four ounces of Epsom Salts from any pharmacy here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize acids in the urine, so it is no longer irritating, thus ending bladder weakness. Epsom Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

BIG SURPRISE FOR ENGLAND SAY MANY KIEL DESPATCHES

Canal Closed and Germans Experimenting With Heavy Guns on Boats.

London, Oct. 14.—A despatch from Copenhagen to the Adly News says: "What is the big surprise the Germans have for England, which they repeatedly talk about? Copenhagen is full of rumors, purporting to come from German officers, in private letters and despatches. The Kiel canal is again closed to neutral ships and the 'big surprise' rumors are received by pretty influential and reliable persons in private despatches from Kiel, although it is difficult to understand how they have passed the censor."
"The reports say that the Germans are experimenting with new heavy guns fired on a draughtboat, and that the canal is closed for the purpose of conducting firing practice."

HALE TELLS HOW ENGLAND REATS WAR PRISONERS

Comforts for Captives, He Says, Almost Amount to Luxury.

HAVE LITTLE WORK TO DO; GIVEN THE BEST OF FOOD

Officers in Camp Are Allowed a Servant and Given Half Pay.

London, Oct. 14.—The generous treatment by the British of German prisoners of war formed the basis of a note given by Chancellor Hale yesterday on his return from a tour of inspection of the three British detention camps. Mr. Hale, who was sent to the camps by the British secretary of state as charge of American emissaries Austrian branch, is the first American permitted to visit the enclosure in which Great Britain's hospitality is extended to enemy alien prisoners, of whom less than 4,000 are held in the camps. He is the only one of the whole number incarcerated by the authorities. The comforts provided for captives, according to Mr. Hale amounted in most cases almost to luxury. He said: "The feature of the tour which I should like to emphasize is the humane and considerate way in which we have treated any kind was made to me by any prisoner. All willingly conceded how delighted they were to be treated, and they were sincere about it because I had the fullest opportunity of conversing with them beyond the bars of the camp."

Germans Are Tactful.
"Another curious thing was that not one asked me about the war, which was tactful, for they are not permitted to see newspapers or get any information about the war, and had they asked me I should have had to decline to answer. I was informed, incidentally, that the officer prisoners had heard of the fall of Antwerp, and that efforts were being made to know how the news had been spread to them."
"It is intensely interesting to note the difference between the German and the Austro-Hungarian prisoners. The latter take imprisonment light heartedly, but the Germans were inclined to be cantankerous and to grumble loudly against fate."

The first camp that Mr. Hale inspected was an open air enclosure. The camp was arranged in streets of tents. The tents had wooden flooring. Each occupant of a tent had two blankets and drew nations equivalent to a British soldier, except that he ate less meat and more bread. Mr. Hale said that each tent elected a captain, and each street had a chief captain, empowered to enforce discipline, select cooks, etc.

Do Little Work.

Practically the only work the prisoners do is chop wood, wash clothes and cook. Their chief pastime seems to be taking shower baths, and there is an unlimited supply of soap and water.

The only remark touching on the war made to Mr. Hale was a statement by a private of a German guard regiment, who said: "I was captured within 20 miles of Paris."

"Among the Austrians were naval officers, who had been captured while trying to return home from South America. These officers had servants selected from non-belligerent prisoners to attend to their wants. They had a regular mess, chosen by their own food, subject of course to the approval of British authorities. They draw half pay, and were not allowed to wear their uniforms, however. They can play games, have ample space for exercising, and are allowed to go together in five conditions closely approaching luxury."

AUSTRIANS CLAIM LARGE NUMBER OF RUSSIANS CAUGHT

Rapid Advance of Austro-Hungarian Troops Responsible for Relief Prezensyl.

The Hague, Oct. 14.—(4:20 a.m.) The Austrian legation here has issued the following official communication: "The rapid advance of the Austro-Hungarian troops along the river San resulted on October 11 in the entire withdrawal of the Russian investing force from Prezensyl, which was immediately occupied by Austrian relief troops."

"The retreating Russians everywhere were strongly attacked. An attempt on their part to cross the river near Slen and Leskaj gave the Austro-Hungarian troops an opportunity to take a large number of prisoners. These are yet have not been counted."

Take All Funds.

Bordeaux, Oct. 14.—M. Land, the minister of justice, has instructed all the district attorneys in France to seek out and sequester all goods and funds belonging to German and Austrian firms.

FARMERS' ELEVATORS ARE PROVING GREAT BOON TO ALBERTA AGRICULTURISTS

On the walls of the office of J. D. Hunt, deputy attorney general in the Alberta provincial buildings, are large maps of the province, showing the exact locality of 78 elevators of the Alberta Farmers' Co-operative Elevator company, sheriff's offices and offices of the justice of the peace.

On Wednesday, in Calgary, no less than 400 farmers from all parts of the province, representing the seven thousands stock-holders of the 78 subsidiary companies, were gathered at the annual meeting, which commences the second successful year of the existence of these farmers' elevators in Alberta.

The farmers have had a good year with their elevators. At the close of

actions have had the tendency to keep up and steady the price of grain, while the spread in the price of grain has been reduced very materially.

The livestock department of the Farmers' Elevator company, which was organized about a year ago, has done a thriving business, amounting in the aggregate to a very handsome sum. The officials decline to give out figures until such time as they are presented at the meeting on Wednesday. This department is in charge of E. Carswell. Last season there were 22 elevators. During the present season, 26 new companies have been organized, and as many elevators built, which makes a total of 78 community elevators under the jurisdiction of the farmers. The existence of the co-operative company has been testified, aside from the profits made, by the fact that its trustee-president of the U. S. C. and formerly of Red Deer, W. J. Tregillus, president of the Alberta Co-operative

Elevator company, will preside at the Wednesday meeting, and a number of farmers from the Edmonton district will attend.

Treat Priests as Officers.
London, Oct. 14.—The German emperor says a Berlin despatch to Reuters has approved the suggestion of the Archbishop of Cologne to treat all captured French priests as officers, though they be serving as private.

What the Theater Press Agents Say

BARGAIN PRICES. WIGGS, WIGGS & PRINGLES, who are presenting "Mrs. Wiggs of the Cabbage Patch," a dramatization of Alice Hegan Rice's famous "Blatant" romance, is the "Thrilling" offering of "The Players" at the Empire theatre. "No more appropriate selection could have been made for such an occasion, as the homely philosophy and ready wit of Mrs. Wiggs seems very suitable when the play is seeking to make merry."

This famous play will give the members of the company the best opportunity yet afforded them for character work, as practically all the parts in the play are character types. Miss Frances Harrell will play Mrs. Wiggs, a part in which she has already won laurels in other cities.

Miss Bessie MacAllister, as Miss Mary, Miss Edith Cooper, as Love Mary; and Miss Florence Templeton, as one of the gossiping neighbors, will all be at home in their respective parts. Guy Harrington will fill the principal male role of Stubbins.

Bargain prices will prevail during this engagement, 40c of the better seats being set aside at 50c, to give every one an opportunity of seeing this talented company.

At the special matinee on Saturday, the children will be admitted for 10 cents, as it is felt that the healthful amusement provided should attract the younger generation, who will especially appreciate the characters in "Mrs. Wiggs."

As this is the last appearance of the "Players" here for some time, it is hoped that capacity audiences will greet them at every performance.

THE VERSATILES ARE COMING TO THE EMPIRE.

Stuart Whyte's all star English musical comedy company, the "Versatiles," will be the offering at the Empire theatre on Monday, Tuesday and Wednesday, October 19, 20, 21.

This clever aggregation of London comedians and comedienne made a decided hit at the Empire two seasons ago, and should more than repeat that success this season, especially as they are the only musical attraction that will tour Canada before the holidays.

The bill for Monday and Wednesday evenings will be a fanciful musical fantasy of the "flowery kingdom," entitled "Scottie in Japan."

But the real robust Scotch comedian, will be the featured member of the cast.

On Tuesday evening and Wednesday matinee the five-minute musical melange, "The Canadian Express," will be given.

Each of these offerings contains 24 song hits, including the Pierrot first prize, which is a pot-pourri of popular songs and dances.

In particular is the work of a fox terrier who seems to take delight in turning backward somersaults much to the amusement of the audiences. The war pictures conclude the performance.

MASTERY PRESENTATION BY HOWE AT LYCEUM

There have been many actors at the Lyceum theatre who have been masters of make-up, but it is doubtful if any Indian in local stage land has been so realistically presented as the aborigine "Black Feather," of Wallis Howe, in "His Ship Window" this week.

One detail of make-up has been neglected, and Mr. Howe makes a fine figure in the regalia of the profane, eccentric, though altogether likable, Indian, who, in his crude, barbarous manner, tries to set a disrupted household right.

How he helps to do it is one of the best features of the play.

"His Ship Window" will appeal to most lovers of melodrama for it presents the old problem of the woman who is placed on an Arizona ranch with a husband who is too busy to give her any attention.

When the great awakening of the husband comes it is almost too late to make amends. Fortunately, both husband and wife have friends who help to show them the right path and spare them from a false step.

K. AND E. FILMS NEAREST TO PERFECT.

The Empress theatre gives to the motion picture lovers of the city an other genuine treat as the bill for Wednesday and Thursday, "The Klav and Elzinger picture production, 'Men and Women,' presented in three parts, heads the program.

The Klav and Elzinger pictures are thorough in production, and as to care and attention to every detail in the film, even to the minutest point, strength of subject developed, unexcelled direction and acting, there have probably been no films shown at least in Edmonton, that can come up to them. They are the highest point reached as a class, and the Empress can feel proud in being the theatre that exhibits these sterling productions.

The same great experience that has made the names of Klav and Elzinger the masters in the theatrical world, are making their motion pictures take the same rank.

"Men and Women," the picture that will be shown for Wednesday and Thursday, is an artistic melodrama of modern American life. It is clean, wholesome and human, and has the quality that gathers in all the human faculties of attention. The plot is clear, logical and effectively constructed.

It treats such a theme that has its big appeal to every eye and ear. It is a double love story of novel, yet powerful interest.

DRAMA AND COMEDY AT BIJOU THEATRE.

The program at the Bijou can be called one typifying the most successful subjects for motion picture presentation for there appears on the bill for Wednesday and Thursday three types of pictures, each a classic representation of the respective kind of production. The first is a comedy, "Children of the West," is a three reel special production produced by one of the largest exclusive feature

film manufacturers in the world. The quality of this film will take it easily far above the picture of its type, and naves of this nature have without doubt the largest following of any yet presented. But it is truly a fine example of the western motion picture with a strong thread of story and sentiment and abounding in many spectacular and thrilling scenes. It should appeal and interest most.

The other drama is entitled "The Coward and the Man," and visualizes an altogether different subject. There is an assessment of high grade films that is a good, well-constructed story told by this picture.

Two comedies conclude this varied and interesting bill. They offer a sharp and pleasing contrast to the other portion of the program. Here is an assessment of high grade films that are bound to please.

LAURIER GLAD TO HAVE JOE MARTIN IN FIGHTING LINE

Liberal Chieftain Writes Letter to St. Pancras Member, With Invitation.

The liberal party, at least the aggressive and progressive portions of it throughout Canada, will no doubt be glad to hear that Joseph Martin, member of the British commons for St. Pancras East, London, will again be in the front of the battle line when the next dominion election campaign comes round.

A short time ago the press wires were hot with messages from the various cities at which "Fighting Joe" stopped on his west-bound transcontinental trip, stating that he would again interest himself in Canadian politics. It was stated that he had a conference with Sir Wilfrid Laurier at which the liberal chieftain had invited Mr. Martin to take part when the time comes, in the interests of liberalism.

It now turns out that Sir Wilfrid has written the picturesque political fight a letter, formally extending the invitation. The letter follows:

"Ottawa, Oct. 2, 1914.
"My dear Martin:
"Since you have returned to the land of your birth, you cannot remain indifferent to the political situation of this land."

"At present all our problems must give way before the supreme consideration of the war in which we are engaged. Our first duty is to help, as far as in our power may be, Great Britain in the herculean task which she has assumed."

"But the problems of our situation are only dormant. Sooner or later they will rise again for imperative solution. It will then be the mission of the liberal party to endeavor, by a wise, economic policy, to free the lines of trade, expansion of commerce, and the lightening of the burden of the consuming classes, to bring back that long

section especially, and to be prepared and ready to take the field at the proper time."

"I therefore cordially invite your assistance and co-operation in the west, and am very glad to welcome your return to the party."

"Believe me ever,
"Yours very sincerely,
"WILFRID LAURIER."
"The Honorable Joseph Martin, K.C., M.P., Vancouver, B.C."

RECORD OF BOSTON BRAVES BRIGHT MARK IN BASEBALL

Not Likely to Be Soon Surpassed—Each Member of Winning Team Will Receive \$2,813.10 as His Share of Proceeds—Losers Get 2,031.68 Apiece.

Boston, Oct. 14.—By defeating the Philadelphia Athletics yesterday afternoon in the fourth and last game of the series, the Boston Braves accomplished something no other ball team has done in the history of baseball, winning the world's title in four straight games. It was Connie Mack's ardent desire to perform such a feat but such a feat of fate that he and his erstwhile wonderful machine were merely the instruments to allow for the triumph of others.

The rise of the Braves this season was the most sensational in all baseball chronicles. In the middle of July they were hopeless tailenders in the National league and apparently with little hope of rising from their lowly position. In fact it was customary to refer to them as the "lowly Braves." Then a new spirit seemed to come over the team and they started to win games and kept on winning until in September they touched the high mark of the league.

Even then there was a general belief that they have no chance against the Mackmen when they met in the championship series. The odds all favored the Athletics and betting odds of 2 to 1 were offered with no takers to speak of. But the Braves demon-

ARRANGING FOR AMERICAN CITIES TO ENTER HOCKEY

New York and Boston Will Play Great Winter Game This Season.

Montreal, Oct. 14.—Headquarters of the promoters of the new professional hockey league, in which it is hoped to include clubs from New York and Boston and two Canadian clubs, announced yesterday that the Boston National players placing a hockey team in the new league. Hockey is popular in Boston, and a professional team there would be almost sure to pay, it was added.

On the other hand, a prominent N. H. A. official is reported to have said today that any New York team entering a professional hockey league this morning would be with the N. H. A. and not the proposed new organization. Any team previously mentioned as seeking a berth with new league has approached with the N. H. A. with the object of securing a franchise, the official said. It was stated that a New York team was a practical possibility in the National Association winter but it could not be learned what their club would be taken in to allow a uniform schedule. If one New York team were admitted it would make the N. H. A. a seven club league.

Another War Caused by a Broken Teapot, While Still Another Resulted From the Theft of a Petticoat.

Over a Glass of Water.

The war of the Spanish succession, in which the great Duke of Marlborough played a brilliant part, was so to be the outcome of a glass of water at a ball at the Tuilleries in Paris. One of the court ladies had expressed a wish for a drink of water in the hearing of the British and Spanish ambassadors, who hastened to get it for her. Returning each with a tumbler they found the fair bird had fallen and was dancing with a French statesman. The English diplomat accidentally, it is presumed, brushed against the Spaniard and upset the glass. The trouble does not go beyond his own debt. Louis XIV. of France was infuriated the jealousy of the nations turned the balance in favor of war.

The Seven Years War was largely due, according to his own confession, to the vanity of Frederick the Great in wanting to see his name figure largely in the gazettes.

The Sepoys believed that cartridges were laced with grease which was offensive to their religious feelings. The fat of animals unclean alike to Hindus and Mohammedans, and the Indian Mutiny was precipitated.

The Turko-Russian war was said to have been started by the hammer with which a Herzegovinian blacksmith killed a tax collector who had insulted his daughter.

The stealing of a Castle lady's lace petticoat by a Moor led to many years of fierce warfare between the Spaniards and the Moors. The emptying of a bucket of a Florentine citizen on the head of a Milanese gave rise to an interprovincial war in Italy.

Borrowing a tobacco pipe and fall-tractions of snails and vipers as food started fifty years of fighting between them to return it kindled a civil war. A dispute as to the relative altitudes of Pamirs and Afghanistan, which lasted for years and among the Milan and Pisa.

A broken teapot started a war. In 250 years ago which cost half a million lives. The teapot was the cherished possession of a dignitary in favor with the Emperor. Travelling through a lawless province in the northwest of China some of his retainers who had fallen behind the main body were intercepted by a band of robbers, and among the spoils the teapot was found and contemptuously thrown on the ground and broken. The Mandarin reported his loss to the emperor, a force of soldiers was sent and, and a long and terrible war ensued.

Lord Palmerston once said that only three men had ever known the exact nature of the trouble in Schleswig-Holstein which led to the two great wars broke out and he, the third of the trinity, had completely forgotten what it was all about.

The manipulation by Count Bismarck, then Prussia's foreign minister, of a telegram sent Prussia and France by each other's throat in 1870. The French ambassador went to Ems, where Emperor William I. then was, to ask him not to approve the amendment of Prince Leopold to become the King of Spain. The king refused to give definite answer, but Prince Anthony of Hohenzollern withdrew his son's candidacy. A report of the conference was submitted to Count Bismarck, with authorization to publish it. Bismarck altered the text, and in the changed form gave it to the newspapers and through them to France. As Bismarck wrote it the report was known in France, and the international war with all its horrors followed. Years later Bismarck confessed the forgery.

WAR CORRESPONDENT GIVES THRILLING DESCRIPTION OF GERMAN RAID INTO FRANCE

(Special War Correspondence.)
Verdun, France, Oct. 4.—"La gauche? La gauche!" called the French woman to me from the upstairs window of her little pink brick villa that stood in its prime little garden on the white ribbon road to Verdun, and her long, bony finger beckoned a passage over miles and miles of cabbage fields that lay flat as a griddle, hissing in the overpowering sun.

"La gauche?" (To the left?) I questioned again, for at the far end of these hot stick cabbage fields I saw only a heavy forest swimming in the heat.

"Où! Où!" she cried, resorting to my monosyllabic French as if to make me comprehend.

HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist
As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated about past endurance by food fermentation elements—and wind. In all such cases—correctly known to 90 per cent of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of saturated magnesium, which is doubtless the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped, almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure you get your druggist for the saturated magnesium as I have found other forms utterly lacking in its peculiarly valuable properties.—F. J. G.

SERBIAN BOYS OF TEN YEARS OF AGE FIGHT NEAR ARRAS GUARD PRISONERS

Stated Many Captives Asked to Fight Against the Germans.

Nish, Serbia, Oct. 14.—In every street, avenue and alley in Nish one can see groups of children dressed in gray blue Austro-Hungarian uniforms. They are war prisoners, and are escorted to the public works by one or two Serbian soldiers.

This procession often is accompanied by a squad of the defence force. Serbian boys ten and twelve years old, armed with rifles, bayonets, and whips, proudly marching behind and fully alive to their importance and merit, which they endeavor to impress upon the public mind by singing patriotic songs. Most of the prisoners are of the Slav element of the Austro-Hungarian army. There are very few Germans among them.

Many prisoners have expressed the desire, many have even sent official applications to the authorities to enter the fighting ranks of the Serbian army in order to "do out" just reckoning for the hardships we endured from German culture.

A wounded, Horvath officer who succumbed, exclaimed before he died: "Long live the great Serbian king!"

birds, and the birds themselves, were scattered all about the ground.

But, after all, it came to me, as I turned to flee from the sight and horror of more, nature has triumphed over the military spirit a few over-herds foster among the peoples of the earth. For, at last, in my very feet, by a Frenchman and a German, the arm of one about the other and an empty trench between them. And I like to think that, as they died, they divided their water and their rations and knew that, after all, the people of the Rhine are brothers to the people of the Seine, and that they themselves had no quarrel with each other.

I gazed the road finally and looked back over that field that tells only a very tiny part of the awful cost of this war. And as I was thinking of "Rudolph and Ivo," brothers in death, from the east a great flock of carrion birds swooped down among the cables and the common dead.

Nature, onward, still was patient. Was seeking her healing to the mangled, bruised earth.

THE CALL

(By James Bernard Hogan)
Come to the flag, where the motherland needs you!
The future calls and the great past speaks to you!
Your blood and your best for the land that breeds you!
Stand and fight, be one to me!
Never a child that my breast has suckled
Yet at the word of the tyrant truckled;
Swift to my side with your armor buckled;
Your brothers call you from over the sea.
Can you hear the guns and the children crying
On the fields of France, where that flag is flying;
Can you hear the roll of our dead and dying,
And stop your ears with the dust of peace?
The beast of the world on the world is preying.
For a little hour leave work and play;
An hour for men, with no thought of staying
Till the beast be crushed and the slaughter cease.
Men of my race, whom the oceans sever,
Proud and free by my thousand years' endeavor
Strike for that freedom, now or never,
Stand forth for England who made you free!
Come to the flag, where the motherland needs you!
The future calls, and the great past speaks to you!
Your blood and your best for the land that breeds you!
Son and soldier, be one to me!

DANGER IN FLY POISON

"Child Bitterness," a monthly magazine published by the Child Bitterness Bureau, 50 West Washington street, Chicago, has an editorial in the October issue on "The Fly Poison Peril," which says:

"Considering the safe up-to-date methods of destroying that pest, the domestic fly, it is remarkable that people will persist in using the poison fly papers. The basic toxic principle of all these papers is arsenic, one of the most potent and insidious of poisons. The danger to children is great, and the danger to adults is by no means inconsiderable. The danger in general is proved by various items in our exchanges. We present herewith a partial list of accidents from papers all over the continent, giving particulars of 25 accidents to babies from drinking fly paper. Of the 25 cases noted, five were fatal and the balance non-fatal or uncertain."

STANDARD TRUSTS IS APPOINTED RECEIVER FOR C. H. I. COMPANY

Yesterday morning in supreme court chambers, Mr. Justice Clement appointed the Standard Trusts company as receiver of the affairs of the Canadian Home Investment company. The order was made on the application of Mr. Douglas Armour, who appeared for a number of the contract-holders.

There was some discussion over the receivership. Mr. S. S. Taylor, K. C., for the Canadian Home Investment company directors, suggested either leaving it with the Dominion Trust company, who had been acting as trustee since the company got into difficulties, the Yorkshire Guarantee, the Imperial Trust, or the Royal Trust.

Mr. Armour insisted on the Standard Trusts company as the most satisfactory to his clients, and his lordship held that the plaintiff had the right to nominate Mr. Justice Clement ruled adversely an objection made by Mr. T. E. Wilson on the part of the Standard Trusts company.—From the News-Advertiser, Vancouver, October 2.

The Standard Trusts company's office for the province of Alberta is in the Imperial Bank building, Edmonton. An office under the management of H. H. Holland.

Those Hungry Cannon

(From "Child Bitterness")

The Kaiser said he was going to stagger humanity. He has staggered it. The slaughtered hordes of soldiers and of an indefinite number of murdered women and children; the dyming of helpless cities at night and the burning of thousands of homes show the Kaiser has made good. Seven thousand dead Germans in one battle, lying one body to each square yard; magnificent! And it is war—up-to-date barbarity.

The Kaiser said that he would sacrifice 100,000 men if necessary, to win the French border. How easy is the sacrifice of other men's lives. The sacrifice of one Kaiser or of one car, would be much more to the point.

The youngest, the bravest, the best—dying by thousands—for what? They do not know.

Civilization is a failure. Christianity is having a hard time these days trying to appear consistent and logical and to read God's mind. Each nation reads His mind and interprets His will in a different way—according to the particular nation's lights and desires.

Nobody knows whether God is laughing at the maddest millions of insane murderers, or weeping with the wives and children at home. In any event, He knows that civilization is a mockery and a delusion. Who knows in what form His rebus to man will come?

Nationism as fostered by government is a monstrous thing that must occasionally be fed with blood, lest be perished from lack of sustenance.

WHOLE OF POLAND WEST OF VISTULA IN GERMAN HANDS

Berlin Report Insists Muscovites Still Getting Worst of Battle.

DURING RECENT RETREAT TEUTONS NEVER DEFEATED

Deny That Ossowetz Was Ever Bombarded—Will Not Occupy Suwalki.

London, Oct. 14.—Reuter's Amsterdam correspondent sends the following German official communication announcing events in the eastern theater of war:

"After their expulsion from east Prussia the Russian armies were pursued across the frontier. The center of the German military operations is now Poland. The whole of Poland west of the Vistula is now in German possession, the Russians occupying only Warsaw."

"The few kilometers lost by the Germans in Russian territory near the east Prussian frontier were of little importance, as it was never intended definitely to occupy or govern Suwalki."

"It is not true that the siege of Ossowetz has been abandoned, as the fortress has never been besieged."

"During our retreat to the east Prussian frontier our troops nowhere were defeated, but on the contrary repulsed any attacks of the Russians."
